GENERAL INFORMATION

Our Highway Engineering Grade Reflective Marking Tape was developed specifically for school buses. It's very durable and easy to apply.

Vivid yellow 2" reflective stripes increase safety - especially during the early morning hours.

Our reflective stripe is equal to or brighter than reflective material used on highway signs.

REFLECTIVE TAPE

APPLICATION SUGGESTIONS

We suggest application of a single 2" reflective stripe horizontally down each side of the bus body at about floor level.

Additional horizontal stripes should be applied full width across the rear just above the emergency door and just above the bumper.

Vertical stripes should be applied in the rear, close to each corner.

A reflective "SCHOOL BUS" sign should be applied on top of the existing painted lettering in the rear.

ORDERING INFORMATION

Determine the length of reflective material needed for a bus.

Cut material with scissors.

YELLOW REFLECTIVE TAPE

Part No.	Width	Length
LK9367	2"	50' Roll
LK9345	2"	Per Foot
LK9346	1-3/4"	Per Foot
LK9347	1"	Per Foot

LK9341 School Bus Sign - 44" x 10"
